# Waterscape

Water features like cascading waterfalls and pools fronting the residential units bring calmness home to residents at the end of each work day. There is a reflecting pond where water mirrors the sky above to reflect a sense of peace and tranquility.

# Space

The unusually high ceiling of the units enables the erection of ceiling-to-floor glass panels to take in a larger frame of natural view of the outside and allowing more natural light into the living area at the same time. The height also adds volume and space to provide spacious and comfortable living.
